

of the detailed statement, or other information that is part of the ANDA process, is deemed material to patentability in a pending USPTO matter, then such information must be submitted to the USPTO during the pendency of the matter, to meet the duties of candor and good faith and disclosure under 37 CFR 1.56, 1.555, 42.11(a) or (c), or 11.18(b)(2).

Deliberate schemes or established practices to prevent 37 CFR 1.56(c) individuals from obtaining knowledge of material information is not acting in accordance with candor and good faith under 37 CFR 1.56(a). For example, walling off the patent prosecution practitioners from the attorneys seeking FDA approval, as a way to prevent material information from being exchanged between the practitioners and attorneys, is inappropriate. The U.S. Supreme Court has refused to enforce patents where deliberate steps were taken to suppress material information. *See, e.g., Keystone Driller Co. v. Gen. Excavator Co.*, 290 U.S. 240 (1933) (patent owner's suit dismissed where the patent owner paid a third party to keep a prior use secret); *Precision Instruments Mfg. Co. v. Auto. Maint. Mach. Co.*, 324 U.S. 806 (1945) (suit dismissed where patent owner actively suppressed evidence of perjury to the USPTO).

Though the FDA compiles paragraph IV certifications and publishes a list on its website, submitting this list to the USPTO does not satisfy the duty of disclosure for any material information submitted with the paragraph IV certification. These lists do not include patent numbers, relevant claims, or an explanation of the basis for the certification. Therefore, information and documents submitted with the paragraph IV certification that are material to patentability or to issues in proceedings pending before the USPTO, including the PTAB, must be submitted directly to the USPTO and as described above, the examiner may appropriately require submission of information concerning the certifications in certain situations.

Katherine K. Vidal,

Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.

Comments

A 60-day Notice requesting public comment was published in the **Federal Register** on May 23, 2022 at Vol. 87, 3218. This comment period ended July, 23, 2022. Zero public comments were received from this Notice.

Title of Collection: NCCC Service Project Application.

OMB Control Number: 3045–0010.

Type of Review: Renewal.

Respondents/Affected Public: Current and prospective AmeriCorps NCCC sponsors.

Total Estimated Number of Annual Responses: 1,800.

Total Estimated Number of Annual Burden Hours: 17,100.

Abstract: The AmeriCorps NCCC Service Project Application is completed by organizations interested in sponsoring an AmeriCorps National Civilian Community Corps (NCCC) team. Each year, AmeriCorps NCCC engages teams of members in projects in communities across the United States. Service projects, which typically last from six to eight weeks, address critical needs in natural and other disasters, infrastructure improvement, environmental stewardship and conservation, energy conservation, and urban and rural development. Members construct and rehabilitate low-income housing, respond to natural disasters, clean up streams, help communities develop emergency plans, and address other local needs.

AmeriCorps has made several changes to the application in an effort to streamline it for users. Based on feedback from stakeholders, the application now has additional project objective options users may select, and the radio buttons have been changed to check boxes to allow users to select as many objectives as they would like. The NCCC Service Project Application was also simplified by deleting the “Organizational Capacity” and “Needs” narrative pages.

AmeriCorps seeks to renew the current information collection. The revisions are intended to simplify the application process for prospective sponsors. The information collection will otherwise be used in the same

manner as the existing application. AmeriCorps also seeks to continue using the current application until the revised application is approved by OMB. The current application is due to expire on 10/31/2022.

Dated: July 26, 2022.

Walter Goodson,
Director, AmeriCorps NCCC.
